Notes

This map shows the coal, industrial mineral and metal mines, and major exploration projects of British Columbia that were active in 2011. Some sites were active for only part of 2011. Large exporting aggregate producers are shown but not the many aggregate quarries serving local markets around the Province. Not all exploration projects in the Province are shown on this map.

Information provided by the Province's regional geologists: Jim Britton, John DeGrace, Dave Grieve, Paul Jago, Jeff Kyba, and Bruce Northcote. Information compiled by Sarah Meredith-Jones, Pat Desjardins, and Robin Chu of the British Columbia Geological Survey.
