Award Name	Award #	Awarded on Academic Merit	Awarded Amount	Description	Additional Requirements
Frederick Armand McDiarmid Scholarship	322	Yes	$ 1,850	A $1,850 scholarship, a memorial to Frederick Armand McDiarmid, has been endowed by Neil H. McDiarmid. It is awarded to a student, graduate or undergraduate, with preference to those in Mining. Selection is based on academic standing, practical ability and experience, and promise in research.	- Minimum GPA of 75% from 2025W. - Not eligible if you were in full-time CO-OP for the entire 2025W year. - If you were in CO-OP for only one term in 2024W, you must have been registered in at least 12 non-CO-OP credits in the other term to remain eligible.
William Eugene MacInnes Memorial Scholarship	569	Yes	$ 2,650	Scholarships totalling $2,650 are made available through an endowment established by William H. and Mathilde MacInnes, in memory of their son, William Eugene MacInnes (1912-1934), for fourth-year mining engineering undergraduate students at the Norman B. Keevil Institute of Mining Engineering. Consideration will be is given, not only to scholastic standing, but also to achievement in student government and/or in athletics. During his time at UBC, William (B.A. 1935) studied Mining Engineering and was active in student affairs holding various positions including: President of Science, Vice-President of the Engineering Society, and Regimental Sergeant-Major in the Canadian Officers' Training Corps (UBC). The awards are made on the recommendation of the Norman B. Keevil Institute of Mining Engineering.	- Minimum GPA of 75% from 2025W. - Not eligible if you were in full-time CO-OP for the entire 2025W year. - If you were in CO-OP for only one term in 2025W, you must have been registered in at least 12 non-CO-OP credits in the other term to remain eligible.
Charles and Jane Banks Scholarship	572	Yes	$ 1,000	This scholarship was established from a bequest to the University by the late Honourable Charles A. Banks who, during his term as Lieutenant Governor of the Province, was official Visitor of this University. This contribution, which provides support for worthy and deserving students is striking evidence of his generosity and that of his wife, and their concern for the welfare of others. Scholarships to a total of $131,950 are awarded on the recommendation of the Faculties, to students who have completed at least one year in the following Faculties, and are continuing in the Faculty in an undergraduate program: Science ($44,350), Applied Science (Engineering) ($52,000), Forestry ($9,000), Land and Food Systems ($17,600) and Pharmaceutical Sciences ($9,000). The Charles A. and Jane C.A. Banks Foundation was established by a bequest by the Honourable Charles A. Banks, who during his term as Lieutenant Governor of the Province was the Official Visitor of this University.	
Dunsmuir Scholarship	2120	Yes	$ 700	A scholarship of $700 founded by the Hon. James Dunsmuir, is awarded to the undergraduate student entering third year in the Faculty of Applied Science with the highest standing in Mining and Mineral Process Engineering.	- Minimum GPA of 75% from 2025W. - Not eligible if you were in full-time CO-OP for the entire 2025W year. - If you were in CO-OP for only one term in 2025W, you must have been registered in at least 12 non-CO-OP credits in the other term to remain eligible.

Lt. Eric Soulis Ditmars Scholarship	2176	Yes	$ 1,900	A scholarship of $1,900 has been endowed by the late William C. Ditmars. The award is made on the recommendation of the Department of Mining and Mineral Process Engineering to a student in the Department who shows promise of outstanding ability and has sound personal qualities and character.	- Minimum GPA of 75% from 2025W. - Not eligible if you were in full-time CO-OP for the entire 2025W year. - If you were in CO-OP for only one term in 2025W, you must have been registered in at least 12 non-CO-OP credits in the other term to remain eligible.
Fluor Canada Ltd Scholarship in Chemical, Materials and Mining Engineering	2195	Yes	$ 1,750	A scholarship of $1,750 is offered annually by Fluor Canada Ltd., to a 3rd or 4th year student in one of the following disciplines: Chemical, Materials or Mining Engineering, who has actively participated in a multi-disciplinary student design team. Preference will be given to a 4th year student with an interest in pursuing a career in the mining and metals sector, and/or the Engineering, Procurement and Construction industry. The scholarship is made on the recommendation of the Faculty of Applied Science.	- Minimum GPA of 75% from 2025W. - Not eligible if you were in full-time CO-OP for the entire 2025W year. - If you were in CO-OP for only one term in 2025W, you must have been registered in at least 12 non-CO-OP credits in the other term to remain eligible.
Lornex Mining Corporation - Dr E B Gillanders Memorial Scholarship	2199	Yes	$ 1,250	A scholarship of $1,250 has been endowed by Lornex Mining Corporation Ltd. in memory of Dr. Earl B. Gillanders, B.A. (Geology) 1925, M.A. (1926), Ph.D. Princeton (1930) and his many contributions to the mining industry. The award is made to a student proceeding to a B.A.Sc. degree or higher degree in Mining and Mineral Process Engineering. The student must be planning to work in the mining industry following graduation. This award is made on the recommendation of the Head of the Department of Mining and Mineral Process Engineering.	- Minimum GPA of 75% from 2025W. - Not eligible if you were in full-time CO-OP for the entire 2025W year. - If you were in CO-OP for only one term in 2025W, you must have been registered in at least 12 non-CO-OP credits in the other term to remain eligible.
Cy and Emerald Keyes Scholarship in Mining Engineering	2213	Yes	$ 6,000	Scholarships to a total of $6,000 have been made available by the late Cy and Emerald Keyes for undergraduate students in Mining Engineering. The awards are made on the recommendation of the Department of Mining Engineering, to students entering the second or higher year of study in Engineering. The scholarships are available only to Canadian citizens and permanent residents.	- Minimum GPA of 75% from 2025W. - Not eligible if you were in full-time CO-OP for the entire 2025W year. - If you were in CO-OP for only one term in 2025W, you must have been registered in at least 12 non-CO-OP credits in the other term to remain eligible.
Bernard Boe Memorial Scholarship	5307	Yes	$ 7,650	Scholarships totalling $15,300 have been endowed through the estate of Phyllis Elizabeth Duncan in memory of Bernard Boe for undergraduate students entering their final year of study in Geological Engineering or Mining Engineering. The awards are made on the recommendation of the eligible departments with the half total amount going to a student in Geological Engineering and half the amount to a student in Mining Engineering.	- Minimum GPA of 75% from 2025W. - Not eligible if you were in full-time CO-OP for the entire 2025W year. - If you were in CO-OP for only one term in 2025W, you must have been registered in at least 12 non-CO-OP credits in the other term to remain eligible.
SAG Mining Engineering Scholarship	5314	Yes	$ 3,000	Scholarships totalling $3,000 have been endowed by SAG for Mining Engineering students entering second year. The awards are made on the recommendation of the Department of Mining Engineering.	- Minimum GPA of 75% from 2025W. - Not eligible if you were in full-time CO-OP for the entire 2025W year. - If you were in CO-OP for only one term in 2025W, you must have been registered in at least 12 non-CO-OP credits in the other term to remain eligible.

Sandy Laird Service Award in Mining Engineering	5318	No	$ 8,000	Awards totalling $8,000 have been made available through an endowment established by Sandy Laird, (B.A.Sc. 1957) (Mining Engineer) to second- and third-year undergraduate students majoring in Mining Engineering in the Faculty of Applied Science. These awards are intended for mining engineering students who aspire to become industry leaders through careers in mine operations and management. Recipients have the opportunity to expand their understanding and knowledge of the industry to help them succeed in their professional career. Strong leadership abilities are critical to advancement in the mining industry; therefore, candidates must have demonstrated leadership through active participation in extracurricular activities in high school, the community, the university and/or sports. Students in co-op studies are eligible to receive the award. The awards are made on the recommendation of the Department of Mining Engineering	- Students in co-op studies are eligible to receive the award. - Please provide a one-page cover letter that addresses the key considerations for the award as outlined in the award description (leadership, extra-curricular activities, etc.). All applicants will be required to attend an interview with the selection panel.
Donald J. Evans Scholarship in Engineering	5323	Yes	$1,750	Scholarships totalling $48,350 have been endowed by Donald J. Evans (B.A.Sc. 1947, M.A.Sc.1949) for undergraduate students in engineering. The awards are made on the recommendation of the Faculty of Applied Science.	- Minimum GPA of 75% from 2025W. - Not eligible if you were in full-time CO-OP for the entire 2025W year. - If you were in CO-OP for only one term in 2025W, you must have been registered in at least 12 non-CO-OP credits in the other term to remain eligible.
Louis J. Gall Award in Mining Engineering	5335	No	$17,900	Service awards totalling $17,900 have been endowed by Louis J. Gall (B.A.Sc.1944) for students with satisfactory academic standing in the Department of Mining Engineering who have demonstrated leadership skills through participation in campus and community activities. The awards are made on the recommendation of the Department.	
James Marlow Scholarship in Mining Engineering	5373	Yes	$22,050	Scholarships totalling $22,050 have been endowed by the Estate of James Marlow for undergraduate students entering the fourth-year of mining engineering who demonstrate an interest in the design and operation of surface and/or underground mines. Recommendations are made by the Faculty of Applied Science.	- Minimum GPA of 75% from 2025W. - Not eligible if you were in full-time CO-OP for the entire 2025W year. - If you were in CO-OP for only one term in 2025W, you must have been registered in at least 12 non-CO-OP credits in the other term to remain eligible.
ConeTec Women in Geotechnical Engineering Award	5419	No	$ 3,225	Two $3,225 awards are offered annually by the ConeTec Education Foundation and the Woeller Family Foundation for second and third-year female Bachelor of Applied Science students in Civil Engineering, Geological Engineering, or Mining Engineering who have demonstrated leadership and an interest in pursuing geotechnical field work and field research. ConeTec Investigations was founded in 1985 by Mining Engineering alumnus David Woeller (M.Eng. 1986). Headquartered in Richmond, B.C. and with offices throughout North and South America, the company provides full-service geotechnical and geoenvironmental site investigation for the infrastructure, mining, energy, environmental and construction industries. The awards are made on the recommendation of the Faculty of Applied Science.	

James (Jim) O'Rourke Scholarship in Mining Engineering	5428	Yes	$ 24,900	Scholarships totalling $24,900 have been made available through an endowment established in honour of James (Jim) O'Rourke (B.A.Sc. 1964), P.Eng., OBC, and supported by friends, family and colleagues, for outstanding Bachelor of Applied Science students specializing in Mining Engineering. Preference will be given to students studying Mineral Processing. Mr. O'Rourke is the founder of Copper Mountain Mining Corp and played a vital role in many prominent global mining projects in his fifty-year career. He served as president and director of numerous public and private companies and his contributions to mining and business have been recognized with honors including a Lifetime Achievement Award from the Mining Association of B.C. and induction into the Canadian Mining Hall of Fame. Jim received the Order of British Columbia (OBC) in 2011 for his contributions to mine building in B.C. The scholarships are made on the recommendation of the Norman B. Keevil Institute of Mining Engineering.	- Minimum GPA of 75% from 2025W. - Not eligible if you were in full-time CO-OP for the entire 2025W year. - If you were in CO-OP for only one term in 2025W, you must have been registered in at least 12 non-CO-OP credits in the other term to remain eligible.
Eldorado Gold Scholarship for Women in Mining Engineering	5434	Yes	$ 5,000	Scholarships totalling $5,000 have been made available annually through a gift from Eldorado Gold for outstanding female students in the Bachelor of Applied Science program specializing in Mining Engineering. Eldorado Gold is a Canadian gold and base metals producer with twenty-five years of experience building and operating mines in Europe, Asia, and the Americas. The company is dedicated to responsible operations, the highest safety and environmental standards and, working with stakeholders to enhance the communities where it operates. The scholarships are made on the recommendation of the Norman B. Keevil Institute of Mining Engineering.	
Professor Andrew Andy Mular Memorial Award in Mining Engineering	5448	Yes	$ 5,850	Awards totalling $5,850 have been made available through an endowment established by friends, family and colleagues in memory of Professor Andrew Andy Mular (1930-2020), for outstanding Bachelor of Applied Science students majoring in Mining Engineering who have demonstrated an interest in the mining industry and breadth in their interests through educational, extracurricular, or leadership activities. Professor Mular (B.Sc., M.Sc.) joined UBC as a Professor of Mineral Process Engineering in 1972 and served as Head of what was then known as the Mining and Mineral Processing Department (MMP) from 1986 to 1993. He retired as a Professor Emeritus in 1996. Professor Mular was the recipient of the Walter Gage Award from UBC in 1984 and the Robert H. Richards Award from the Society for Mining, Metallurgy & Exploration in 1990 for his work to further mineral beneficiation. He was credited for a series of publications on plant design, published by the Society for Mining, Metallurgy and Exploration (SME).	- Minimum GPA of 75% from 2025W. - Not eligible if you were in full-time CO-OP for the entire 2024W year. - If you were in CO-OP for only one term in 2025W, you must have been registered in at least 12 non-CO-OP credits in the other term to remain eligible.

IODE Ruskin Chapter Alfred Newton Wolverton Memorial Scholarship	7680	Yes	$ 1,650	A scholarship of $1,650 endowed by the Ruskin Chapter of the Imperial Order Daughters of the Empire through a bequest from Alfred Newton Wolverton, is offered to worthy and deserving undergraduates in Mining Engineering. Preference is given first, to students entering the third year, and second, to those proceeding from third to the final year. Scholarships are made on the basis of scholastic ability, promise in the field of mining, and financial need.	- Minimum GPA of 75% from 2025W. - Not eligible if you were in full-time CO-OP for the entire 2025W year. - If you were in CO-OP for only one term in 2025W, you must have been registered in at least 12 non-CO-OP credits in the other term to remain eligible.
Freshwater Bursary	8389	No	$50,000	Bursaries totalling $66,800 have been endowed through a bequest from Norman Gavin Morgan Freshwater for undergraduate students in the Department of Mining Engineering.	
Don Lindsay Teck Award in Mining Engineering	100016	Yes	$40,000	Awards totalling $42,750 have been made available through an endowment established by Teck Resources Limited in honour of Don Lindsay (B.Sc. (Hons.), M.B.A.) for undergraduate mining engineering students at the Norman B. Keevil Institute of Mining Engineering at UBC. In addition to academic merit, consideration is given to qualities such as leadership skills, community service and extra-curricular achievement. Subject to continued good academic standing, the awards will be renewed for a further two years of study or until the first undergraduate degree is obtained (whichever comes first). Don Lindsay retired as President and Chief Executive Officer of Teck after 17 years, in which time the company has been recognized for its leadership in sustainability. He has been at the head of seven different companies, including president of CIBC World Markets. Mr. Lindsay is a recipient of the Queen Elizabeth II Golden and Diamond Jubilee Medals and was appointed to the Order of British Columbia in 2014.	**- Students may reapply each year and can receive the same award up to three times, provided they continue to meet the eligibility criteria.** - Please provide a one-page cover letter that addresses the key considerations for the award as outlined in the award description (leadership, extra-curricular activities, etc.). - Minimum GPA of 75% from 2025W. - Not eligible if you were in full-time CO-OP for the entire 2025W year. - If you were in CO-OP for only one term in 2025W, you must have been registered in at least 12 non-CO-OP credits in the other term to remain eligible.
Canadian Mineral Processors Award in Mining Engineering	100066	No	$ 2,150	Awards totalling $2,150 have been made available through an endowment established by the Canadian Mineral Processors (CMP), BC /Yukon Branch for Bachelor of Applied Science students studying Mining Engineering who demonstrate an interest in pursuing a career in mineral processing and extractive metallurgy through co-ops, internships, relevant volunteer work, or other related experiences. CMP, a Technical Society under the Canadian Institute of Mining, Metallurgy, and Petroleum, originated from the Canadian Gold Metallurgists, with a core focus on cost-efficient ore milling and high recovery rates. Today, it upholds this tradition by prioritizing operator-centric goals, fostering innovation, and promoting widespread industry engagement and community fellowship. The awards are made on the recommendation of the Faculty of Applied Sciences.	

Pan American Silver Award in Engineering	103303	No	$ 4,000	Awards totalling $4,000 have been made available annually through a gift from Pan American Silver for women in the second year of the Bachelor of Applied Science program who are studying mining engineering. Pan American Silver is a mining company with operations and project development activities in the Americas. Its work centers on building and operating mining projects with attention given to environmental responsibilities and community relationships. The company is committed to the long-term care of the assets and environments in which it operates. Pan American Silver, together with Women in Mining BC, a volunteer-driven organization that promotes inclusion and connection within the provincial mining industry, established this award to support and encourage women pursuing careers in mining engineering. The awards are made on the recommendation of the Norman B. Keevil Institute of Mining Engineering.	

** For awards listed as 'Awards totaling $XX', the final amount each recipient receives will depend on the number of eligible applicants.*
